Love this dress!  it's sooo pretty.  i happened to find it in a store, and
i'm glad i did bc i never would have ordered it online bc it's petite.  i
bought a petite and am 5'8".  i love the length on me- hits just a little
below the knee.  would definitely be a true midi on someone who is truly
petite.
## 3 I had such high hopes for this dress and really wanted it to work for
me. i initially ordered the petite small (my usual size) but i found this to
be outrageously small. so small in fact that i could not zip it up! i
reordered it in petite medium, which was just ok. overall, the top half was
comfortable and fit nicely, but the bottom half had a very tight under layer
and several somewhat cheap (net) over layers. imo, a major design flaw was
the net over layer sewn directly into the zipper - it c
## 4
I love, love, love this jumpsuit. it's fun, flirty, and fabulous! every time
i wear it, i get nothing but great compliments!
## 5
This shirt is very flattering to all due to the adjustable front tie. it is
```

the perfect length to wear with leggings and it is sleeveless so it pairs
well with any cardigan. love this shirt!!!
6   I love tracy reese dresses, but this one is not for the very
petite. i am just under 5 feet tall and usually wear a 0p in this brand. this
dress was very pretty out of the package but its a lot of dress. the skirt is
long and very full so it overwhelmed my small frame. not a stranger to
alterations, shortening and narrowing the skirt would take away from the
embellishment of the garment. i love the color and the idea of the style but
it just did not work on me. i returned this dress.
